Experience

Front End Developer (Sept. 2016 - Present) :

Whereoware LLC

- Customized and styled e-commerce websites using platform built on EpiServer CMS (ASP.NET MVC)
- Contributed to the core platform by adding additional functionality to be used across all current and future sites
- Created and maintained user interface for SaaS product Product Fastlane
- Created custom, responsive, IE11 compliant, and ADA compliant user interfaces for TGB Brands, Illume Candles, Sera-Care, King pin Tattoo Supply, Currey & Company, and more

Front End Developer (Nov. 2015 - Apr. 2016) :

Code for DC / 21st Century Schools

For Generations To Come Project

- Created a web-based data visualization for DC City Council that shows modernization expenditures from FY1998-2021 for DC public and charter schools
- Created interactive bubble chart using D3 and Underscore
- Worked with Data Lead to ensure valid representation of data
- Used Python to import CSV and JSON files to create accessory JSON files required for additional, supporting charts

Co-Owner /Audio Engineer (Jan. 2012 - Jan. 2014) :

Sunbeam Music LLC

- Crafted brand-specific soundscapes and sound guides for clients, as well as background music for radio and television
- Educated clients and prospects on our services and how it would impact their business
- Created website from scratch using HTML, SASS, JavaScript, Web Audio API, and PHP
- Contracted musicians and studios to complete projects
- Created additional marketing brochures, presentation materials, and demo reels to present to prospective clients with Indesign
